Inquiry Wonderings

My extreme environment is _____

Remember, our key question is 'what makes your chosen environment extreme?' What questions can you ask to help answer this? Lets focus on plants, animals and weather.

My 3 questions are: (one question per box)

| Plants	Animals	Weather

Where might you find the answer to these questions? List the websites and books you might use. Don't forget to record your findings somewhere, perhaps a mindmap?

Matarawa Inquiry

Project Based Learning Inquiry Cycle
Introduction to Project Based Learning

Challenging Problem or Question
Prior Knowledge
Unpack the Question or Problem
Vocabulary

Reflect
Reflect on the process
What did you do well?
What would you change?

Sustained Inquiry
Asking a question
Research skills
Note taking
Answering a question

Share your learning
Presentation of ideas
Present to an audience
Receive feedback

Challenging Problem or Question
What makes an environment extreme?

My Chosen Extreme Environment is:

Sustained Inquiry
How do I ask open-ended questions? What research skills do I need? Can I answer my questions?

My wonder questions are:
Remember they should be focused on what makes this an extreme environment and how living things have adapted. Delve deeper into an area you found interesting and want to know more about in your chosen extreme environment. Your questions need to be open-ended questions (watch the video on the blog to help you)

Come up with **ONE** question for each of these:

Humans

Plants

Animals

KEY search words
What are some of the key words you will need for your investigation?
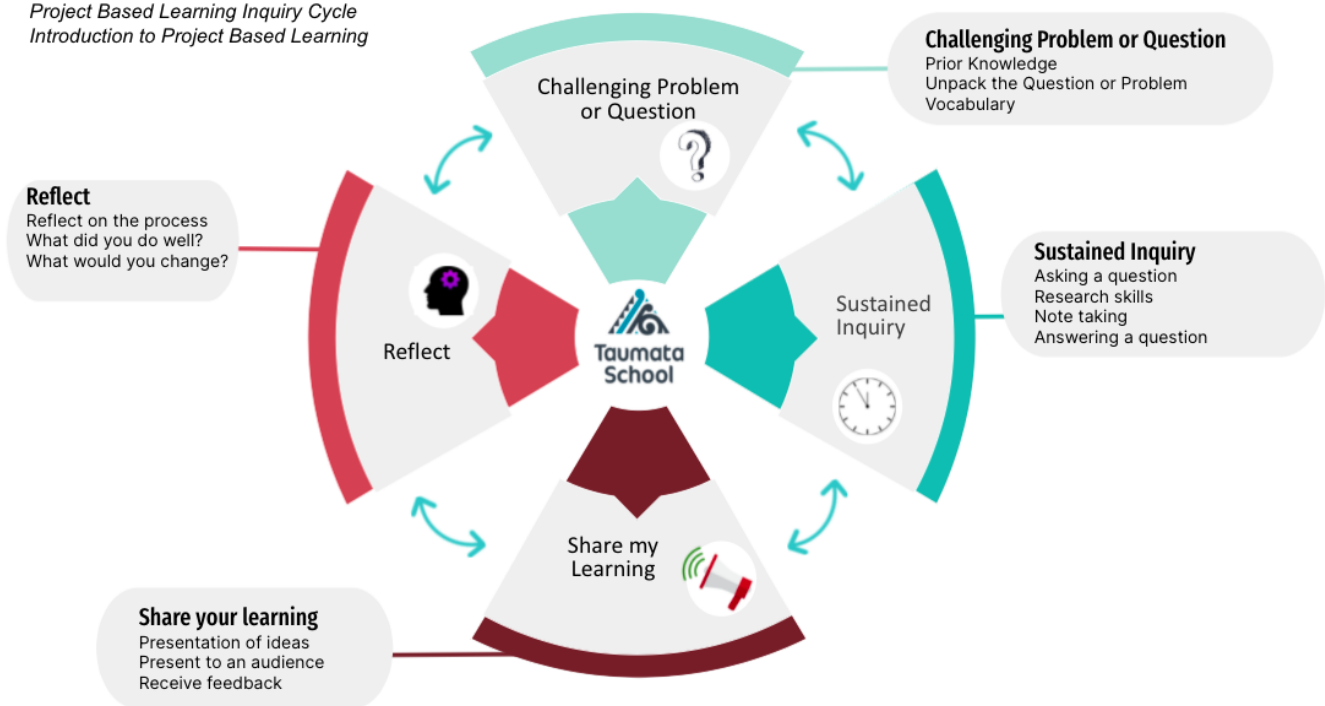

Resources
Where can I find the answers to my questions: (websites, books, videos etc)
Make a list of what you have used to do your research

Presenting my learning
Think about how best to present your learning when we are back at school. This could be iMovie,
Speech Presentation, Keynote Presentation, Building a model etcc.
Put some ideas down on what you would like to do.
